

Mar. 23, 2009 – TeleMatrix 3300IP corded Single-Line Sets Approved For Use With Alcatel-Lucent OmniPCX Enterprise R9.0 Platform.

Region: Global

TeleMatrix has confirmed certification of single-line 3300IP SIP corded telephones for interoperability with the Alcatel-Lucent OmniPCX Enterprise R9.0 telephone platform effective March 23, 2009. The single-line 9600IP DECT SIP cordless, and two-line 3302IP corded and 9602IP cordless sets are expected to be approved Q2 2009. The Alcatel-Lucent OmniPCX Enterprise is an integrated, interactive communications solution for medium-sized businesses and large corporations. The solution combines traditional telephone functions with support for Internet-based telephony and multimedia communication.
