

June 10, 2009 – TeleMatrix Two-Line 3302IP SIP Corded And 9602IP DECT SIP Cordless Sets Expected To Have a Standard SIP General Release During Q3 2009.

Region: Global

TeleMatrix has confirmed that it now expects to have a Standard SIP General Release for two-line 3302IP SIP corded and 9602IP DECT SIP cordless telephones in Q3 2009. Available in 5 and 10 memory speakerphone versions, TeleMatrix two-line SIP corded and DECT SIP cordless telephones are equipped with PassPortSM RJ45 pass-through data port technology, TouchLite[®] one-touch voice mail retrieval, and a 5 year manufacturer warranty. Single-line 3300IP and 9600IP models are already released.

Please note these releases may or may not cover your PBX type. For specific PBX inter-op status, please contact your TeleMatrix sales representative.
