

April 8, 2009 – TeleMatrix Two-Line 3302IP SIP Corded And 9602IP DECT SIP Cordless Sets Expected To Receive General SIP Interop Certifications Early Q2 2009.

Region: Global

TeleMatrix has confirmed that it expects to receive general SIP certification of two-line 3302IP SIP corded and 9602IP DECT SIP cordless telephones in early Q2 2009. Available in 5 and 10 memory speakerphone versions, TeleMatrix two-line SIP corded and DECT SIP cordless telephones are equipped with PassPortSM RJ45 pass-through data port technology, TouchLite® one-touch voice mail retrieval, and a 5 year manufacturer warranty. The single-line 3300IP and 9600IP are already released.
