Epygi and TeleMatrix Announce Interoperability Partnership.

Plano, TX, and Colorado Springs, CO, September 3, 2009 — Epygi Technologies, Ltd. (www.epyki.com), a worldwide provider of award-winning small to medium business IP PBX telephone systems, and TeleMatrix, Inc. (www.telematrix.net), a leading manufacturer of SIP telephone sets, today announced a joint interoperability partnership that provides Epygi dealers and developers with TeleMatrix SIP and DECT SIP telephones for hotel guestroom applications.

TeleMatrix is an ISO 9001 and RoHS-certified manufacturer of SIP corded, DECT SIP cordless, analog and digital Centrex telephones for hotel, education, healthcare and general business applications. Through the 2006 merger of TeleMatrix and Scitec, the combined companies have deployed 7 million telephones at 30,000 commercial customer locations worldwide. Hotel customers include Accor, Best Western, Choice Hotels International, Hilton, Hyatt, InterContinental Hotels Group, Marriott, Starwood, Swissotel and Wyndham.

Reliable, secure, and easy to install and use, the Epygi Quadro range of IP PBXs, VoIP gateways and cost-saving conference servers offer users outstanding benefits and an unparalleled range of features at very economic prices. The state-of-the-art equipment gives superior sound quality and a quick return on investment because of its low maintenance cost.

“We’re expecting a high level of customer satisfaction and sales success through our Epygi/TeleMatrix partnership, because it effectively combines the global acceptance of the Epygi Quadro IP-PBX and the popularity of internationally-designed TeleMatrix SIP telephones”, said Jose Quiros, Chief Operating Officer, TeleMatrix, Inc./Scitec, Inc.

"This partnership provides exciting new opportunities for Epygi and TeleMatrix channel partners to compete in the emerging global transition of hotel guestroom telephony from analog to SIP," said Warren Sonnen, Epygi's Director of Product Management.

About TeleMatrix

TeleMatrix, Inc. is a certified Minority Business Enterprise (MBE) and leading ISO 9001 and RoHS-certified manufacturer of SIP corded, DECT SIP cordless, analog, and digital Centrex telephones for hotel, education, healthcare, and general business applications. Through the 2006 merger of TeleMatrix and Scitec, the combined companies have deployed 7 million telephones at 30,000 commercial customer locations worldwide.

About Epygi
