

SpectrumPLUS Approved Headsets

TeleMatrix designed the Headset Port to be compatible with Plug and Play type headsets. An amplifier can be used with the Spectrum Plus product as long as the amplifier volume is reduced to the lowest setting.

For **Direct-Connect applications** in the modular headset port the following Plantronics Products are recommended:

- H261N P/N64339-01-Supraplus
- A-10-16 US/APLA P/N 66268-02
- HW301N-EncorePro P/N 78714-01

For **Amplified applications** with any Plantronics band headset in the modular headset ports:

- MPA-12 Application switch in position at "5"
