**Superclick Networks Reaches Agreement With TeleMatrix To Support Teledex ExpressNet<sup>®</sup> High-Speed Internet Access Customer Base.**

*For Immediate Release - Colorado Springs, Colorado, December 31, 2009—*

Superclick Networks, Inc. ([www.superclick.com](http://www.superclick.com)) reached agreement today with TeleMatrix, Inc. ([www.telematrix.net](http://www.telematrix.net)) to support the Teledex ExpressNet<sup>®</sup> high-speed internet access customer and guest support footprint.

"This is the exclusive Teledex-endorsed move for ExpressNet<sup>®</sup> customer service and product support," said Jose Quiros, Chief Operating Officer, TeleMatrix, Inc. As a global leader in the delivery of guest internet management systems, Superclick Networks provides Teledex ExpressNet<sup>®</sup> customers with a support team that demonstrates a capability and willingness to deliver exceptional products, installation, service, and support."

According to Michael Cohen, Vice President, Sales and Marketing, Superclick Networks, Inc., this is an important move for not only Superclick Networks and TeleMatrix but for the hospitality industry in general. This strategic alliance with TeleMatrix will ensure Teledex ExpressNet<sup>®</sup> HSIA customers, stable and seamless access to ongoing efficient guest support for their existing ExpressNet<sup>®</sup> installations through our world class, multi-lingual, North American based, HSIA customer support center. Superclick Networks experienced staff will be provide immediate ExpressNet<sup>®</sup> HSIA customer support, plus ongoing Teledex ExpressNet<sup>®</sup> product support and deployment services for any pending and future projects."

Teledex customers and channel partners should send a detailed email to [ExpressNet@Telematrix.net](mailto:ExpressNet@Telematrix.net) to request additional information, enter an ExpressNet<sup>®</sup> equipment order, or submit a support request.
