TeleMatrix and The SIP School Launch SIP Training Web Portal.

Birmingham, UK and Colorado Springs, CO., September 22, 2009— TeleMatrix, Inc. (www.telematrix.net), a leading manufacturer of SIP telephone sets, and The SIP School (www.thesipschool.com), a global provider of web-based SIP training services, today announced the joint launch of a new TeleMatrix SIP training portal.

According to Graham Francis, CEO of The SIP School, "The SIP School has gained another great client and endorsement for its SIP training and Certification program, and this time it's the Colorado-based telephone specialist, TeleMatrix."

"We take TeleMatrix channel partner training very seriously," states Telematrix COO Jose Quiros, "and the offering of our own proprietary IP Configuration Tool training plus The SIP School's comprehensive SSCA™ certification program, demonstrates our commitment as a market leader in SIP-based telephony", he concludes.

The modules include training in areas such as TCP/IP, IP addresses, Switches and VLANs, DSCP and QoS, SIP Server functionality, Time Server, DHCP and TFTP. The course also includes material specific to TeleMatrix products such as the IP Mass Configuration Utility Installation, and IP Mass Administration Utility (Overview, Setup, Discovering Phones, Checking Status). This will be enhanced with a secure Knowledge Server for TeleMatrix products accessible only to Value Added Resellers that meet TeleMatrix SIP certification requirements.

For information on TeleMatrix SIP telephony solutions and training programs, call +1.719.638.8821, write info@telematrix.net, or visit www.telematrix.net.

About TeleMatrix

TeleMatrix, Inc. is a certified Minority Business Enterprise (MBE) and leading ISO 9001 and RoHS-certified manufacturer of SIP corded, DECT SIP cordless, analog, and Digital Centrex telephones for hotel, education, healthcare, and general business applications.

Through the 2006 merger of TeleMatrix and Scitec, the combined companies have deployed 7 million telephones at 30,000 commercial customer locations worldwide.

About The SIP School

The SIP School, a unit of Vocale, Ltd, delivers web-based SIP training programs, including the highly-rated SSCA™ certification, LANS/WANS Voice Over IP, and other important SIP and Unified Communications courseware designed for IP-PBX manufacturer channels, corporate IT staff, and general business applications.
