

## SIP Interoperability Certifications

3GEN – The Third Generation Cetis SIP phones began manufacture in 2018. They are the newest evolution combining better deployment, network protocols, and SIP feature sets. The hardware is new and distinct from previous generations, and the firmware version begins with 3.x.

Asterisk *(FreePBX used for baseline Cetis internal testing)*

Avaya Aura 7.0

Alcatel Lucent OxE R12.1

Broadsoft Broadworks Rel 22.0

Cisco Unified Call Manager 11.5

Cloud5

Mitel MiVoice Business 8.0

NEC – Univerge (pending)

Panasonic NS700

(pending)

### Teledex Models

#### M Series

M100IP - Corded, 1-line  
M100IP-TRM - Corded, 1-line  
M103IP - Cordless, 1-line  
M200IP - Corded, 2-line  
M200IP-TRM - Corded, 2-line  
M203IP - Cordless, 2-line

#### E Series

E100IP - Corded, 1-line  
E100IP-TRM - Corded, 1-line  
E103IP - Cordless, 1-line  
E200IP - Corded, 2-line  
E200IP-TRM - Corded, 2-line  
E203IP - Cordless, 2-line

#### I Series

ND2100IP - Corded, 1-line  
NDC2100IP - Cordless, 1-line  
ND2200IP - Corded, 2-line  
NDC2200IP - Cordless, 2-line

### TeleMatrix Models

#### 9600 Series

9600IP - Cordless, 1-line  
9602IP - Cordless, 2-line

#### 3300 Series

3300IP - Corded, 1-line  
3300IP-TRM - Corded, 1-line  
3302IP - Corded, 2-line  
3302IP-TRM - Corded, 2-line
